User variables

New

**variable name - path**

**variable value - C:\Program  
Files\Java\jdk-17\bin;**

new

**variable name - java\_home**

**variable value - C:\Program  
Files\Java\jdk-17**

press “ok”

close “System properties” window

open a new command prompt

and type

**javac**

it shouldn't give u error “unrecognized command”
